1st Edition, August 2011

Catch Up with Galcon

We've decided to help you keep in touch with Galcon and our new GalcoNews will help you stay updated with our news and events. Be the first to hear about our new products, receive updates about upcoming events and get our latest news and insights. We hope you enjoy this first edition of GalcoNews and we invite you to stay tuned for more updates at www.galconc.com

Experience our New Catalogue

May marked the launch of our new and improved product catalogue. The new cutting-edge, Flash-based on line catalogue is an experience in itself, and now includes the complete range of Galcon products and services. To browse the catalogue and learn about our complete product and solutions portfolio just go to: <http://galconc.com/catalog/>

Learn About Our New 11000 Series

We've just launched our new 11000 Series of gardening controllers. The 11000 series is ideal for home gardening, roof gardens, flower planters, herb gardens and seasonal flowers. Our newly-released controller is the first model in a series of outstanding and innovatively designed user-friendly quality tap timers. This series of controller consumes very low energy, resulting in long battery life. Get acquainted with 11000 at: <http://galconc.com/products-page/residential-gardening/s-11000/>

Meet Our New Waterworks Division

The beginning of 2011 also marked the birth of a new division at Galcon. Joining our three existing divisions; Residential Gardening, Turf & Landscape, and Agriculture, the Waterworks division will utilize Galcon's extensive market experience and expertise to provide solutions for water utilities and municipalities around the world. The first application offered is an intelligent and dynamic water pressure management solution that helps significantly reduce water and revenue loss from leakage. Read more at: <http://galconc.com/dynamic-pressure-management-%E2%80%93-a-step-beyond-pressure-reduction>

Visit us at the **WATEC show** 2011 Tel-Aviv Israel, **November 15-17, 2011**, there we will be presenting our solutions of our Waterworks Division.

Visit our New Website www.galconc.com

We are proud to introduce the new Galcon website www.galconc.com. The new website hasn't just changed its address – we've revamped the entire site from content through design to the site functionalities. Browse through the pages to discover a world of Galcon products, high-definition images, technical specifications and downloadable documents.

You are welcome to come and visit us at the IA show 2011, San Diego, California USA, November 6-8, 2011.
